DEPT OF SPACE SECRETARY S SOMANATH TO ET

'New Space Policy to Encourage Private Sector Participation'

Muntazir Abbas
@timesinternet.in

New Delhi: The country's new space policy will look into allowing private sector participation, with commercial activities to be driven by Indian Space Research Organisation's marketing arm, New Space India (NSIL), a top official said.

"The upcoming policy will look at how to enable non-government entities to work in the space sector," S Somanath, secretary, Department of Space (DoS), told ET, adding that the responsibility of the department is to empower new actors. "We are declaring that it's no longer the work of the national space agency alone, and the mechanism on how to support the private sector is defined in the policy, including available opportunities".

The Centre had released the draft Indian Space Policy 2022

earlier this year. It is a revised version of the one unveiled in 2017. Somanath said the new policy has defined that commercial activities of space will be handled by the NSIL, and Indian Space Research Organisation (ISRO) will focus more on research and development and developing capacity. Somanath is also the chairman of ISRO.

He said necessary support to the burgeoning sector would be provided through the Indian National Space Promotion and Authorisation Centre (In-

space), a single-window autonomous government agency.

On when the policy will be launched, Somanath said the department has prepared the policy and it's with the government to come up with it following the due processes.

In order to woo private sector companies and foreign direct investment (FDI), the new policy will allow manufacturing of satellite launch vehicles in India with a focus on marketing and collaborations worldwide.

The new national policy, according to the official, intends to allow operations such as communications and navigation to the private sector.

On security, especially with regard to foreign payloads, the official said, "We are not into the security, and are into national space activities only."

Somanath said security agencies should look at protecting the nation's space interests, and the telecom department (DoT) should analyse the existing digi-

tal divide, analyse the coverage through terrestrial network or satellite systems, to be done.

India's First Private Rocket Set for Nov 15 Launch

New Delhi: India's first privately developed rocket -- Vikram-S -- is set for a November 15 launch on a sub-orbital mission with three payloads, Hyderabad-based space startup Skyroot Aerospace announced on Tuesday. The maiden mission of Skyroot Aerospace, named 'Prarambh' (the beginning), will carry payloads of two Indian and one foreign customer and is set for launch from the Indian Space Research Organisation's launchpad at Sriharikota.

The earth is listening. It all points to 15 Nov 2022 for launch," Sky-space Aerospace said on Friday. The launch is scheduled for 11:30 am, Skyroot Aerospace CEO and co-founder Pawan Kumar Chandana had told PTI. Spacekidz, a Chennai-based aerospace startup, will fly 'Fun-Sat', a 2.5 kg payload developed by students from India, the US, Singapore and Indonesia on the sub-orbital flight on board Vikram-S.

With this mission, Skyroot is set to become the first private space company in India to launch a rocket into space, heralding a new era for the space sector which was opened up in 2020 to facilitate private sector participation. Skyroot's launch vehicles are named 'Vikram' as a tribute to the founder of the Indian space programme and renowned scientist Vikram Sarabhai. Based in Hyderabad, Skyroot was the first startup to sign a memorandum of understanding with ISRO for launching its rockets.—PTI
