OUTLINING PLANS FOR THE FUTURE

Reliance Aims to be Largest RE Developer

Ambani says co has consolidated balance sheet and is ready for next level of growth

Our Bureau

Mumbai: Reliance Industries Ltd wants to be the partner of choice for leading global climate technology and product companies, the telecoms conglomerate said in its fiscal 2024 annual report released on Wednesday. Over the next 12 months, RIL said, its focus will be to bring onstream new energy manufacturing facilities, operate them efficiently and start developing renewable energy generation projects.

RIL's new energy division will commission its first module and cell manufacturing train in the ongoing fiscal 2025. Solar panels manufactured at its Jamnagar facility have obtained BIS certification.

"Work on RE (renewable energy) development has commenced and Reliance has been allotted land in Gujarat. We aim to become the largest RE developer in India," RIL said in the annual report.

"Simultaneously, we would develop a supply chain locally for self-sufficiency and reduce the reliance on imports," the company said, adding that a 50 MWh (megawatt hour) per year capacity pilot line has been set up for manufacturing lithium-ion cells through its Lithium Werks subsidiary. It can be scaled up for commercial-scale production.

RIL is setting up a mega project, the Dhirubhai Ambani Green Energy Giga Complex spanning 5,000 acres in Jamnagar, to manufacture components for the renewable energy sector.

Phased commencement of operations at the Solar PV Giga Factory is anticipated by the end of 2024.

"Reliance made notable progress in cost-competitive green hydrogen production by reducing the cost of renewable power generation and the installed cost of electrolyzers for giga-scale deployment," it

said, "Reliance has consolidated its balance sheet after the previous round of capex and is ready for the next level of growth," chairman and managing director Mukesh Am-

bani said in the annual report, addressing shareholders.

"Our constant endeavour to find solutions for India and Indians has helped us spot multiple growth opportunities that have expanded our business portfolio," Ambani said, adding that this portfolio now enables RIL to touch the lives of millions of Indians through multiple products and offerings.

The company said it is exploring various carbon capture utilisation and sequestration pathways, including synthetic fuels, construction materials, algae cultivation and other innovative solutions.
