INDIA-PAK TURMOIL BOOSTS BASMATI PRICES

# Basmati on Boil over Border Row

Saudi, Iran, Yemen step up purchase on fears that supply may be hit by tensions

Sutanuka Ghosal

**Kolkata:** Basmati rice prices have increased by up to 10% in the last fortnight, reversing a falling trend that started more than six months ago, as West Asian buyers stepped up purchase from India amid increasing tensions between India and Pakistan — the top two producers of the aromatic grain, three large basmati exporters said.

The price of the most popular parboiled basmati rice 1509 variety, which is consumed daily in many parts of India, has risen to ₹59 per kg from ₹53 over the last fortnight in wholesale. Steamed basmati rice, which is used for making biryani, has become costlier at ₹69 per kg from ₹62-63. At the retail level, prices have climbed to Rs 75 per kg for the Sella variety and Rs 80 per kg for the premium variety that is used for biryani.

Prices of basmati rice had started falling in September last year, as global buyers shifted to Pakistan after India introduced a minimum export price to ensure local supplies. The government

subsequently removed the cap but by that time, buyers had already placed orders with Pakistan, which led to an oversupply of basmati rice in the domestic market, pulling the prices down. Buyers have now returned to India amid concerns over potential supply disruptions.

"Prices have gone up 8-10% in the last 15 days. There is fear in the global rice market that the rising tension between India and Pakistan may disrupt the supply of basmati rice, and the cost will escalate," said Gautam Miglani, director of LRNK, a Haryana-based exporter of basmati rice. "This is prompting global

buyers, particularly from the Middle East, to increase imports from India," he said.

Countries like Saudi Arabia, Iran and Yemen are picking up large volumes of basmati rice from India, said exporters. US buyers are also in the market to lift stock before the 90-day window on the Trump tariff ends, they said.

A potential escalation between India and Pakistan could disrupt supply chains and inflate prices significantly, said Akshay Gupta, business head for bulk export at KRBL.

**Steamed basmati rice, which is used for making biryani, has become costlier at ₹69 per kg from ₹62-63**

## Assam Cabinet Okays ₹7.7k-cr Investment in Thermal Power

**Guwahati:** Offering land and an offer to pick up stake, the Assam cabinet has approved the Assam Thermal Power Generation Product Promotion Policy 2025 aimed at drawing large-scale investments into the sector. The cabinet has approved investment proposals worth ₹7,730 crore.

Assam plans to be the regional hub for thermal power. Chief minister Himanta Biswa Sarma said the state's power requirement is rapidly increasing and expected to reach 5,000 MW by 2032, increas-

ing at a rate of 1,000 MW per year.

He added, "we are rolling out an aggressive thermal power policy. The state will offer land free of cost, along with water and road infrastructure, to companies willing to set up thermal power plants. We will purchase power from them by floating tender. After meeting the state's requirement, power can be sold to states such as West Bengal or to countries like Bhutan and Nepal". -- Bikash Singh

# Airtel Africa Teams Up with SpaceX to Offer Starlink Net

Telco to explore rural coverage expansion through cellular backhauling

Our Bureau

CLEAR SIGNAL

**Airtel Africa and SpaceX will continue to look at other areas to promote digital inclusion in the continent**

ols, health centres in even the most rural parts of the continent.

Airtel Africa will also explore rural coverage expansion through cellular backhauling, it added. "This partnership with SpaceX is a significant step to demonstrate our continued commitment to advancing Africa's digital economy through strategic in-

vestments and partnerships," said Sunil Taldar, managing director, Airtel Africa.

Chad Gibbs, vice president of Starlink business operations at SpaceX, said Starlink is currently available in more than 20 African markets. "The team at Airtel has played a pivotal role in Africa's telecom story, so working with them to complement our direct offering across Africa makes great sense for our business."

Airtel Africa and SpaceX will also continue to explore other areas to promote digital inclusion in the continent as well as SpaceX's ability to use and benefit from Airtel's ground network infrastructure and other capabilities in Africa. This March, Airtel announced a distribution pact to bring Starlink's services to India.

# Services Activity Picks up Pace in Apr on Strong Output, Exports

Our Bureau

**New Delhi:** India's services sector activity picked up pace in April, inching up to 58.7 from 58.5 in March, driven by stronger increase in output, according to a private survey released Tuesday.

The HSBC India Services Business Activity Index remained above its long-run average of 54.2. Although, it was lower than 60.8 in April 2024.

Strong output was driven by rise in new business intakes, which survey respondents linked to favourable demand conditions and effective marketing. Among sectors, finance & insurance recorded the highest growth rates in both output and new orders.

"India services activity rose at a faster pace than last month. New export orders gained momentum

after taking a breather in March, accelerating at its fastest pace since July 2024," said Pranjal Bhandari, India chief economist at HSBC.

**Demand from Asia, Europe, Middle East, US continues to boost services companies**

Manufacturing activity also saw a modest pick up to 58.2 in April, the highest level in 10 months, from 58.1 in March, according to data released last week.

International demand, particularly from Asia, Europe, the Middle East, and the US, continued to support Indian services firms. Employment increased for the 35th consecutive month in April, as companies hired both full and part-time employees to meet growing client demand, the survey said.
